Death of Col. John W. Holliday. A dispatch was received in this city yester-day morning about half past nine o'clock A dispatch was received in this city yesterday morning about half pass nine of colock from Stenbenville, announcing the death of Col. John W. Holliday, youngest son of Wm. II. Holliday, Esq., late surveyor of customs for this port. He died of consumption at his home in Steubenville, shortly before the sorrowful news reached here. Col. Holliday was one of the first to obey his country's call to arms, having enlisted carly in 1801, as a private in the Twentieth Onio Infantry—three months' service, afterward serving in the Second Ohio Infantry, and was finally transferred from the last named regiment to the Fifteenth West Virginia Infantry, where he served his country faithfully until the close of the war. He was a gallant officer and a brave solider, rising from the ranks to the position of Colonel, an office he held at the close of the war. Colonel Holliday was born in Wheeling, and was in the forty-fourth year of his age at the time of his death. He had a large circle of riends in this city as well as in Steubenville, at which place he resided since the close of the war, employed as a nailer in the Jefferson iron works. To know him was to love and honor him. He was brave, courageous and generous to a fault. His aged and respected parents are yet resting in this city, besides two sisters and a brother. He haves a loving and faithful wife and an accomplished daughter to mourn his loss, and they lose a kind, affectionate and indulgent husband and father. He has gone from us forever, but his memory still lives, and will be fondly cherished by those left behind.

It is no secret that a movement is on foot put a "citizens' ticket," in nomination in the interest of those among the citizens who oppose the present system of managing the streets and alleys and water works by Boards chosen by the City Council. It is claimed for this movement by its advocates that it has a large und respectable backing. The aim of those who are activating this project is to elect men to Council who are in favor of abolishing the Boards, or at least refusing to appropriate the money for them to carry on their operations, amending the rules and regulations coverning them, and otherwise rendering them inoperative.

covering them, and chrowise rendering them inoperative.

Another movement of an independent mater is on foot, which has crystallized into a tort of declaration of principles, as follows:

"That the greatest encouragement may be iffered for the growth of the manufacturing and other interests of the city, taxation must be made as low as possible. To reach this stud it is necessary that all needed improvements shall be secured at the lowest practicable cost, and that all the inancial and business affairs of the city shall be conducted on the wisest and most economical business principles. The best results will not be secured so long as party machinery is used to ong as party machinery is the nomination and election

Councilment.

"Accepting the above statements as true and with an earnest desire to see the city government elevated above the plane of mer party politics, and a genuine reform inage urated in the conduct of nunicipal affairs, we, the undersigned citizens of Wheeling hereby pledge ourselves to disregard party politics in the coming city election, and to support men for City Council solely on their littless for the place. To the end that only the best men may be elected to that body we armestly recommend that 'Citizens' tickets' any be placed in nomination in each ward or the city, and that only those men be a pre-

This movement has the support of a large number of prominent business men and taxpayers. It has not been definitely decided whether to hold a meeting of those favoring the movement and put a ticket in nomination, or to select a full tucket from the nominees of the two parties indiscriminately, and recommend all voters in accord with the views expressed above to unite in supporting the candidates chosen. A proposition has been under consideration to organize a permanent "Reform League" to advocate the election of desirable men to all municipal offices at all times, and forward all projects for the advancement of the welfare of the city. A prominent Republican said yesterday that in the coming election for members of Council he proposed to vote for railroads, steam on the Elm Grove and the City Doards. These will probably be leading issues in the campaign, and possibly the choice of Councilmen will involve a good many complications.

A suit against one of our saloonists charged with violation of the liquor license ordinance was decided against net own. The witness testifying that he did not pay for the liquod obtained at the time, and that he did not in tend to pay for it.

Charley Senserey assumed command of quite a numerous squad of sportsmen Saturday evening last, and started out on a raid against the 'coons of the currounding county for the purpase of laying in a supply of Thanksgiving meat.

William Porter, who was serving an eleven months' sentence in our county juli for as-sault upon Captain Stotsberry, and was par-doned by the Governor two months ago, was not able, on account of sickness, to be re-moved until last week.

When W. S. Tong,

doned by the Governor two months ago, was not able, on account of sickness, to be removed until last week.

When W. S. Donglass, the Grant county murderer, and Jones, the Harrison county shootist, were being handcatied together preparatory to starting to Wheeling Sattriany. Jones said, in reply to the question what be thought would be the result of his new trial, "Well, I expect to get about ten years, and Donglass will be bung, sure!" Not especially consoling to his fellow prisoner.

Colonel Caldwell's corps of Wheeling, Parkersburg & Charleston Railroad engineers have completed the final survey of the road from Henwood to a point two miles below Moundsyllie, and are pushing forward as rapidly as possible. Mr. Caldwell, by his jovial good nature and apparently inexhaustible fund of entertaining anecdotes, is making a host of friends here, and our people will regret to lose him from among them.

Rev. J. P. Thatcher's Evangelical Hollness church, in the Second ward, was dedicated Sunday, Several ministers were present, and the ceremonies were impressive. Nothing less than the indomitable will and perseverance shown by Mr. Thatcher, almost single handed as he has been in the undertaking, could have accomplished the bhilding of this large church. The series of one hundred church services was held Sunday. Jurring the evening services the commedious building was filled to its utmost capacity, and considerable interest is niready awakened among the congregation.

Mrs. Abe Good, of Bellaire, O., was in town a few days ago on rather a peculiar errand. It appears that Mrs. Good's father is in Jall at St. Clairsville, upon the charge of throwing stones at milroad care, and that Abe and Jesse Good are the principal witnesses against the old man. Mrs. Good came here to get the proper certificate from the prison authorities to substantiate the charge a through stones at milroad care, and that Abe and Jesse Good are the principal witnesses against the old man. Mrs. Good came here to get the proper certificate from the prison

While in conversation with one of the directors of the Richmond and Island Creek rallroad yesterday a reporter was informed that the Pennsylvania Company had made a proposition to the directors looking towards a purchase of the read bed. As the company is making a preliminary survey from the river up King's creek towards Fitisburgh, it is generally believed they contemplate bridging the river at Brown's Island and opening up the vast coal field along Island creek in the direction of Richmond, Jessen county.

Everything is not working harmoniously along the line of the Cleyeland, Youngstown & Pittsburgh road. As was noted in the INTELLIGENCER yesterday morning, the engineers have located the road down Wills Creek to within four fulles of the river. Now it appears that some years ago a charter was obtained for a road from Brown's Station, via Richmond, to Canton, known as the Richmond, to Canton, known as the Richmond, Island Creek & Mineral Point Railroad Company, that under that charter, a right of way was obtained and ten miles of the line graded for a narrow gauge road, that is, from Richmond to the Ohjo river. Those interested in the road claim that the C., Y. & P. is only an extension of the original road to Cleveland, and that under the charter the company will be compelled to follow the R., L. C. & M. P. survey to the river at Brown's Station. It is claimed that the location of the road down Wills Creek has not been positively determined upon. It looks to an outsider, at present, very much as if two roads would be built in the near future through the county in the direction of Richmond. Everything is not working harmoniously long the line of the Cleyeland, Youngstown

No Whiskey!

Brown's Iron BITTERS is one of the very few tonic medicines that are not composed mostly of alcohol or whiskey, thus becoming a fruitful source of intemperance by promoting a desire for rum.

Brown's Iron Bitters is guaranteed to be a nonintoxicating stimulant, and it will, in nearly every case, take the place of all liquor, and at the same time absolutely kill the desire for whiskey and other intoxi-cating beverages.

Rev. G. W. RICE, editor of the American Christian Review, says of Brown's Iron Bitters: Cin., O., Nov. 16, 1881.

Cints:—The foolish wasting of vital force in business, pleasure, and vicious indulgence of our people, makes your preparation a necessity; and if applied, will save hundreds who resort to saloons for temporary reconstructions.

for temporary recuperation Brown's Iron Bitters has been thoroughly tested for dyspepsia, indigestion, biliousness, weakness, debility, overwork, rheumatism, neuralgia, consumption, liver complaints, kidney troubles, &c., and it never
